LEED 2015

LEED V4 GREEN ASSOCIATE

Green Building has no alternative; therefore, so far there are more than 1.5 billion m² space area of various buildings certified – public or commercial purposes, apartment buildings and single-family houses, office towers, as well as whole urban regions. Find out more [here](#). In Croatia, more and more investors turn to green building. Therefore the need for national certification consultants, according to international standards of green building, is increasing and one of the most known certification systems is [LEED](#).

Be a step ahead and secure your place in the green investment projects.

Educate yourself and become a consultant for the LEED v4 and take part in projects around the world.

Let's celebrate World Green Building Week 2015 together!

DAY 1	21/09/2015	DAY 2	22/09/2015
LEED v4 BD+C 251 Understanding Building Design and Construction LEED v4 Rating Systems		LEED Green Associate - Exam Prep (v4)	
<p>This is the most popular rating system in-depth overview and prep for LEED v4 Green Associate exam. This workshop introduces the credit intents, key elements, main requirements, and reference standards of the Green Building Design and Construction (BD+C) LEED rating systems. Workshop participants will gain a solid understanding of the core concepts and strategies of the following LEED rating systems: New Construction & Major Renovations (NC); Core & Shell (CS); and Schools - supporting successful green construction projects. This workshop is appropriate for individuals who are seeking a deeper understanding of the LEED BD+C rating systems, whether they are pursuing GBCI's LEED AP BD+C credential or simply want to gain a better understanding of the rating system. The course does not require familiarity with LEED and is a basic level.</p>		<p>The LEED v4 Green Associate credential is for professionals who want to demonstrate green building expertise in non-technical fields of practice. This credential denotes basic knowledge of green design, construction, and operations. LEED v4 Green Associate is the best introduction to green building that you will find. LEED v4 Green Associate is the premier standard for environmentally sustainable building and provides the foundational knowledge for those interested in green construction. Individuals obtaining this credential gain a competitive edge in today's job market, even with no prior experience in green construction. The certificate is highly transferable into any industry including construction, engineering, project management, property management, or general business. This is a half-day workshop.</p>	

LEED v4 Program is awarded with 16 CPD points.
