

DGNB EDUCATION 2015

Organised by **Croatia Green Building Council**
and Croatian Chamber of Architects

DGNB CONSULTANT

| | | | |
|-------------------------------|------------------------------|-----------------------------------|--|
| Date of the education: | September 23-25, 2015 | Location of the education: | Kuća Arhitekture Oris, Ul. kralja Držislava 3, 10000, Zagreb, Croatia |
|-------------------------------|------------------------------|-----------------------------------|--|

Green Building has no alternative; therefore, there are more than 1.5 billion m² space area of various buildings certified so far – public or commercial purposes, apartment buildings and single-family houses, office towers, as well as whole urban regions. Find out more [here](#). In Croatia, more and more investors turn to green building. Therefore the need for national certification consultants, according to international standards of green building, is increasing and one of the most known certification systems is [DGNB](#).

Be a step ahead and secure your place in the green investment projects. Educate yourself and become a consultant for the DGNB and take part in projects around the world.

Let's celebrate World Green Building Week 2015 together!

The DGNB Certification System is one of the leading instruments worldwide for the planning, construction, and evaluation of sustainable buildings. The system is continually developing and evolving internationally in order to support and advance sustainable building in as many countries as possible. Thanks to its flexible modular structure, the DGNB System balances locally specific responses and globally comparable performance. As a second generation system based on expert knowledge „made in Germany“, DGNB promotes tailor-made sustainability approaches. Advantages of the DGNB System are: evaluating overall performance, life cycle thinking in design, construction and management, supporting global sustainability agenda, encouraging innovation and creativity, reflecting local conditions and requirements, creating transparent processes and targets, generating value – managing risk and raising quality of life.

Prices with discount for payments made until August 25th:

600 €

CGBC and CCA Members (for payments made until August 25th)

750 €

Non-Members of CGBC and CCA (for payments made until August 25th)

Prices without discount for payments made after August 25th:

750 €

CGBC and CCA Members (for payments made after August 25th)

900 €

Non-Members of CGBC and CCA (for payments made after August 25th)

Course details:

The training format includes a wide variety of methods, such as workshops, team work sessions and a building safari. These allow participants to gain a comprehensive knowledge of the evaluation methodology and individual criteria. The training is delivered by DGNB trainers and offers ample opportunities to discuss and explore topics related to DGNB and current approaches to sustainable development.
