

# LEED EDUCATION 2015

Organized by *Croatia Green Building Council*  
& *Croatian Chamber of Architects*

## LEED v4 GREEN ASSOCIATE

<b>Training dates:</b>	<b>21-22/09/2015</b>	<b>Training location:</b>	<b>Kuća Arhitekture Oris, Ul. Kralja Držislava 3, 10000, Zagreb, Croatia</b>
------------------------	----------------------	---------------------------	--

Green Building has no alternative; therefore, so far there are more than 1.5 billion m2 space area of various buildings certified – public or commercial purposes, apartment buildings and single-family houses, office towers, as well as whole urban regions. Find out more [here](#). In Croatia, more and more investors turn to green building. Therefore the need for national certification consultants, according to international standards of green building, is increasing and one of the most known certification systems is [LEED](#).

Be a step ahead and secure your place in the green investment projects.

Educate yourself and become a consultant for the LEED v4 and take part in projects around the world.

**Let's celebrate World Green Building Week 2015 together!**

Leadership in Energy and Environmental Design (LEED®) is a building rating system designed by the U.S. Green Building Council. It was the first national system of its kind in the world when it was launched and now has projects in over 100 countries (including the USA, Canada, Brazil and Italy). The purpose of this voluntary certification program is to strengthen green building market development through the application of “consensus-based” standards and to provide clear criterion for measuring building impacts during and after construction. LEED® “provides independent, third-party verification that a building project is environmentally responsible, profitable and a healthy place to live and work.” In general the LEED® 2009 Rating System offers four possible levels of certification out of a possible 110 points: Certified (40-49), Silver (50-59), Gold (60-79), and Platinum (80 or above). Points are awarded as credits in 6 categories: Sustainable Sites, Water Efficiency, Energy & Atmosphere, Materials & Resources, Indoor Environmental Quality, and Innovation & Design.

<b>Price categories with discount – early bird – until August 25:</b>	<b>400 €</b> Members of CGBC and CCA (for payments made until August 25)	<b>550 €</b> Non-Members of CGBC and CCA (for payments made until August 25)

### About Trainer:

Vessela Valtcheva-McGee, present President of Bulgarian Green Building Council, has extensive experience with sustainability in both practice and education. She has served as a founder and President of a chapter of the US Green Building Council in the United States, and as an officer of the executive committee for 6 years. As an architect she has worked on numerous green building certification projects of national and international significance and as a consultant she managed the certification of building projects in most major rating systems in the US and Europe.

In 2008 Vessela joined partners to form Triple Green Building Group, LLC - a full service sustainability consulting and education, company. In 2010 The U.S. Green Building Council recognized Triple Green Building Group as an Authorized Education Delivery Partner providing the company with a license to deliver USGBC's LEED curriculum courses for the international marketplace. Besides being a LEED AP since 2005, Vessela is a BREEAM International Assessor and DGNB Auditor. Vessela Valtcheva-McGee holds a Master of Architecture degree from the Savannah College of Art and Design where she is an honorary guest lecturer.
